

FAS - WSBINOZ NEWSLETTER

We are approaching the completion of key activities under the FAS project in Poland. As part of active cooperation with schools in the voivodeship of Lodz successfully we manage to accomplish testing of pedagogical model and workshops for parents. We are also completing the implementation of Circle Studies for teachers and educators. Below are a few words about each of these activities. In the frame of FAS project the meeting with teachers have been organized to discuss the methodology of testing phase.

There were also workshops for parents - one of these workshops took place at the Primary School in Bobrowniki (province of Lodz). Over 40 parents took part in the meeting. The workshop was an opportunity to reflect on the importance of emotional intelligence in child development. The meeting was an inspiration for parents to explore this area and also encouragement to work with children in the home environment.

We managed to organize 11 groups of Circle Studies. Meetings of the first groups began in October / November 2019. We plan to complete the Circle Studies cycle in February/March 2020. Circle Studies are an opportunity for teachers and educators to exchange ideas and discussions about ESL and to develop life skills and social competences among students.
